

Please do not replace the K-LOVE signal with an LPFM station. In El Paso we listen to K-LOVE at 89.5 FM. K-LOVE supports wholesome values and has a positive and encouraging impact on our El Paso community. It provides me and my family with community current events information and national and international news. There is no other station in our community that offers their positive values and commercial free encouraging broadcasting. The K-LOVE D.J.s and news people look for and share unusual positive and uplifting news stories that we don't hear or read about anywhere else. If we lost K-LOVE, our community would experience a gap that no other radio station fills.
